

Agenda – Great Lakes St. Lawrence Forest Science Seminar

Date: Tuesday, September 10, 2002

Times: 9:00 a.m. to 4:30 p.m.

Location: The Canadian Ecology Centre, Learning Centre

9:00 a.m.- Coffee

9:15 a.m.- Welcome (George Bruemmer)

9:20 a.m. - IFM spatial feasibility – Nipissing and Westwind (John Pineau)

9:50 a.m. - Old trial re-measurement project (Wayne Bell)

10:20 a.m.- Break

10:50 a.m.- NEBIE Project (Wayne Bell)

11:20 a.m.- Benchmark growth and yield curves (Margaret Penner)

Noon - Lunch (provided)

1:00 p.m. - Enhanced wood supply agreement areas (George Bruemmer)

1:10 p.m.- Logging damage (Scott McPherson)

1:40 p.m.- Competition Study (Doug Pitt)

2:10 p.m.- Morphological indicators of release response in advance white pine regeneration (Bill Parker)

2:40 p.m.- Break

3:00 p.m.- Aerial spraying in white pine shelterwood (Scott McPherson)

3:30 p.m.- White pine regeneration response to different intensities of removal cut (Fred Pinto)

4:00 p.m.- Petawawa Research Forest (Darwin Burgess)

Date: Wednesday, September 11, 2002

Times: 8:00 a.m. to 4:30 p.m.

Location/Venue: Various locations

Leave The Canadian Ecology Centre at 8:00

1. Gurd tree orchard (9:00 – 10:00)

-location: near Trout Creek

-host: Al Stinson

2. Morphological indicators for the release response of advance white pine regeneration (11:30 – 12:00)

-location: near Britt

-host: Bill Parker

LUNCH (provided) (12:00 – 1:00)

3. Ecological effects of site preparation in white pine stands (1:00 – 2:00)

-location: near Britt

-host: Andree Morneault

4. Aerial spray of white pine shelterwoods: Vision and Release (2:45- 3:15)

-location: near Britt

-host: Scott McPherson

Back at The Canadian Ecology Centre at 4:30
