

Lake Abitibi Model Forest 2003 Workshop Series

The Northeast Forest Ecosystem Classification and Implications of Landforms and Soils on Silvicultural Decision Making

The Lake Abitibi Model Forest in partnership with Northeast Science & Information and the Forest Research Partnership is sponsoring two related field oriented workshops; [Introduction to the Northeast Forest Ecosystem Classification \(NEFEC\)](#) and [Implications of Landforms and Soils on Silviculture Decision Making](#). Copies of the Lake Abitibi Model Forest Soil Disturbance Manual and the Northeast Region Forest Ecosystem Classification Guide will be supplied and used as background resources. *Please note that OPFA Continuing Education Credits are pending.*

Principle Instructors:	Kim Taylor (FEC) and Ken Armson (Landforms and Soils)
Location:	Glendale Motor Hotel, Iroquois Falls, ON
Date:	June 24 – 26, 2003
Cost:	Both Courses - \$350.00 NEFEC only - \$150.00 (June 24) Landforms and Soils - \$250.00 (June 25 & 26)

Registration fee includes lunches, transportation to the field, manuals and a reception on Tuesday and Wednesday night. Participants are responsible for their own transportation to the workshop, accommodation and breakfast and dinner.

Outcome:

The NEFEC Introductory course will provide participants with a quick introduction to the NEFEC. The focus will be on understanding how the system is used in the field. Participants will get a brief introduction to forest soils and plants. Participants learn enough background material to be able to effectively function during the next two days of the Landform and Soils workshop.

The Implications of Landform and Soils on Silvicultural Decision Making workshop will allow participants to explore the relationship between landform, soils, forest cover and productivity. The focus will be on the impact that substrate has on silvicultural decision making. Ken Armson uses an exploratory approach where students are asked what they see in the stand, examine soil pits and then discuss their findings in light of options for management.

Registration is strictly limited to 30 persons and we do anticipate a full house. Preference is given to those signing up for both workshops. There is no refund after June 13th, and no guarantee of an opening after that date.

The Northeast Forest Ecosystem Classification and Implications of Landforms and Soils on Silvicultural Decision Making

REGISTRATION

Name: _____

Mailing Address: _____

Telephone Number: _____ Facsimile Number: _____

E-mail Address: _____

Affiliation: _____

Method of Payment: Cheque (make out to Lake Abitibi Model Forest)

VISA (Crawford Creek Solutions)

Master Card (Canadian Trade-Ex)

Three days \$350.00 Day one only \$150.00 Day two and three only \$250.00

Card#: _____ - _____ - _____ - _____ Exp: ____/____

Signature: _____

Dress:

Please bring appropriate footwear for a variety of soil conditions (wet to dry) and dress in a manner to minimize the risk of insect bites. Please bring insect repellent and rain wear.

Accommodation:

You are responsible for your own accommodation. A block of rooms has been reserved at the **Glendale Motor Hotel** for June 23 to 25. The rate is \$80.00 per night plus tax. These rooms will be held until June 2 only. The telephone number for the Glendale is 705-232-4041.
